BIG BASKETBALL GAME TONIGHT

Famous Crescent Five Here and Ready for Struggle With Y. M. C. A.

CONTEST OF THE SEASON.

Visitors Are in Excellent Form-Association Team Has no Fear of The Evanston Players.

A basketball game that will no doubt prove to be the best of the season in this dly is scheduled to take place at the r. M. C. A. gym at 8 o'clock this evening between the association team and the famous Crescent five from Evanston, Ill. The visiting team arrived last night after being delayed on the road for about

The visiting team arrived last night after being delayed on the road for about 12 hours. The Crescents should have arrived here early yesterday morning, rived here early yesterday morning, and it was planned to take them for a ride about the city but the delayed train upset the plans.

Manager Flynn and Captain Orr of the Manager Flynn and Captain Orr of the visiting team expressed confidence that the Crescents will win the three games arranged for them, stating that the play-arranged for them, stating that they are all in excellent form and prepares at a first player. They admit they expect a hard struggle with the Y. M. C. A team as Coach Brown leads to the Utah basket-ball teams are not unknown in the east, and that some very good things have been said about local teams.

Coach Brown expects his men to give the visitors a hard fight as the team has been in constant training for some time in preparation for this evening's contest. The Y. M. C. A. players are fast and accurate and if the visitors defeat them it will be because of their greater experience.

will be because of the control of the rules which shall govern fouls. Capt. Our thinks the man fouled should be made to try the free throw from the spot where the foul was committed. Brown takes an opposite view. But a thorough understanding of the rules under which the game is to be played will be had before the whistle blows for the beginning of hostilities.

The lineup of the teams will be as follows:

TWO GOOD ATHLETES.

Force at University Added to by Adams And McAllister.

And McAllister.

The ranks of athletes under the direction of Maddock at the University of Utah have been added to by the appearance of Morgan Adams of Provo and J. McAllister of Springville, both valuable men for the track squad. Both athletes registered yesterday and at once proceeded to take a "work out" in the gym. Adams holes the state record for pole yault, and is considered one of the best jumpers in the state. McAllister is a sprinter of considerable ability and promises to improve his already good record.

Ella, third. Time—1:39.3-5.
Sixth race, six furlongs—Ralbert won;
Chieftain, second; Suzanne Roccamora,
third. Time—1:18.

AN IMPORTANT MEETING

Of the United States National Lawn Tennis Association.

Tennis Association,

New York, Feb. 5.—An important meeting of the United States National Lawn association, will be held at the Waldorf Astoria tonight. The chief business to be taken up is the question of again challenging the Englishmen for the Dwight F. Davis international challenge cup, and the incorporation of the associations. Officers also will be elected. Among a number of players there is the feeling that the team to be sent abroad to regain the international cup is to be chosen only after a series of matches.

The schedule of championships and tournament fixtures will not be made at the meeting although the applications for dates will be a part of the routine business. The award of the dates will be made two weeks hence.

POOL CHAMPIONSHIP.

POOL CHAMPIONSHIP.

New York, Feb. 5.—Thomas A. Hueston and Edward Dawson, both of St. Louis, will play for the world's championship pool embiem on Thursday, Friday and Saturday evenings of this week, Arrangements for the match were made yesterday by the representatives of players who are in this city. Dawson is the challenger for the embiem. Heuston, the present holder of the embiem, is only 23 years of age.

TO BE HELD HERE.

New York, Feb. 5.—There is hardly any doubt that the next Vanderbilt cup race will again be held in this country. The Automobile club of Italy, which has first claim on the contest because of the French Automobile club's delcination to officially participate, is in favor of having the race held in the United States. There is no doubt, it is understood, that the German club shares the same view,

"PENNY" GOSSIP. "The canine" will be the subject under discussion at this evening's meeting of the Utah Kennel club.

Pretty soon we will begin to receive re-ports from Nevada of the condition of "Young Corbett." He will say, "I never felt better in my life," etc.

Three dozen Bob White quall are coming here from Illinois and are to be turned loose. The birds are to be purchased by three local sportsmen, Jack Sharp, W. H. Parker and Harry O'Keefe.

One of the reasons why Manager Mc-Graw of the Glants, is said to be anx-ious to get rid of "Iron Man" McGinnity is his penchant for getting into trouble with other members of the team, whom he roasts unmercifully for any mistakes they make.

Isn't it about time for one James Edward Britt to issue the second chapter of his famous tale. "What I Will Do to Joe Gans?" There must be something wrong. The fight is not much more than a month away and but little is being said about it. Time for press agents to get busy.

Murphy, the Chicago National League club president, is still of the opinion that he will try numbering his players next season, so that the spectators may recognize them. He should be careful that no combination might be made whereby the catcher and pitcher of his team might line up as "23." Superstitious persons would be inclined to lay against it on a "hunch."

"Spike" Robson, who claims the featherweight championship of England, would like to meet Abe Attell or even some of the best lightweights. Robson is now in the east, and he showed some fair form when he was here last year in two fights with Tommy Murphy. He is willing to take on Attell for a limited bout or a finish fight.

"Cap." Adrian Anson is planning the organization of a national billiard league composed of Chicago, St. Louis and Pitts burg in the west, and New York, Philadelphia and Boston in the east. His idea is to have each city represented by a team of two to five star players and to hold matches twice weekly. The more difficult forms of the game are to be played, including 18.1 and 18.2 balk-line and three cushions.

Bat Nelson is just now having the time of his life in Lunnon. But is stopping at the Hotel Cecil, and by the time he returns to America Biliy Nolan will doubtless have the Battling Dane broken to the ways of the nobility and with ever something of a fondness for the ple fork and a full realization of the utility and possibility of the napkin and finger bowl.

"As for Nelson, I am willing to fight him any time, and he knows it. He took 75 per cent of the purse when I beat him at Goldfield. I'll do better by him, I'll take \$10,000 of the \$40,000 purse offered at Tonopah and let the other \$30,000 go to the winner. Or, I'll take \$6 per cent and let him have 25 per cent straight. If Nelson refuses both of these offers he will prove that he doesn't want to fight me. He can take \$30,000 and the lightweight championship if he beats me. That's good enough, I should think, if he really thinks he has a chance, and isn't afraid to try."

Thusly chirps one Josephus Gans, the dark skinned fighter from Baltimore. But supposing Nelson should accept these terms, is it not more than likely Josephus would insist upon terms pertaining to weight which he knows Nelson would not accept? It is easy to talk and just as easy to get out of a match.

TO PRODUCE "SALOME" IN PARIS.

Paris, Feb. 5.—Preparations to produce the opera "Salome" in Paris are in progress here. M. Strauss, the composer, is to receive \$8,000 and 10 per cent of the receipts for the permission to produce the opera. Herr Strauss will personally conduct the orchestra. Mile. Destin, who created the part of Salome in Germany, will sing in the character here.

TO SUPPRESS BULLFIGHTS.

Mexico City, Feb. 5.—An executive campaign against builfights has been started in this city. Fellowing a mass meeting held yesterday petitions are being circulated for those who wish to protest against the sport. The petition will be presented to President Diaz when enough signatures have been secured.

COMES FROM MOAB AND PROUD OF IT

Rep. J. P. Miller Has Interesting Data About His Home and Grand County.

RESOURCES ARE VARIED.

Dry Farming Has Been Tried With Success-Town is Built Upon Site Of Old Mound City.

"Moab is the center of one of the finst fruit growing sections in the state," said Representative J. P. Miller of Grand county today. "Fruit growing is the chief industry of our locality, and it is increasing from year to year. The oming season will witness the planting of at least 75,000 new trees on the mesas above Moab. We have several thousand acres of land suitable for fruit cultivation which may be had reasonably, and we have room for thousands of settlers.

CANAL IS COMPLETED.

"Without question Grand county has the finest climate in the state. There is an abundance of water. The people of the little town of Elgin have just completed the construction of a canal which will irrigate several thousand acres of land, and another large ditch is being built.

being built.

"The mining industry is coming to the front also," said Mr. Miller. "The La Salle mountains are producing many promising prospects, and the coming summer will see much development work done in the way of opening up claims. Miners' Basin, 25 miles from Mosh has up claims. Miners' Basin, 25 innes from Moab, has a small stamp mill in opera-

tion, pounding out pay ore; Bachelors' Basin and Deep Creek both hve promising properties in gold, silver and copper. The Bookcliff mountains, 40 miles away, are underlaid with coal veins, and when rallway transportation reaches us it will pay to mine the coal.

DRY FARMING A SUCCESS.

PRY FARMING A SUCCESS.

"A nother industry which has come prominently to the fore the past few years is dry farming. I brought some samples of wheat, oats and barley up with me and placed them in the Chamber of Commerce building, where they may be seen by all interested. These grains will compare favorably with those grown on irrigated farms, and they were raised without a drop of water. Any kind of cereals or vegetables do well without irrigation, but of course we irrigate our fruit trees. We shipped 22 carloads of fruit out last fall, and, have more yet to ship. One car of Peaberry pears I shipped from my own orchard to New York city, and another to Liverpool, England. These were grown with irrigation.

SETTLERS ARE WELCOME.

SETTLERS ARE WELCOME.

"We have the finest stock and sheep country in the west," said Mr. Miller, "nearly a million pounds of wool is shipped from Grand country every year. Yes, sir, with our mines, our fruit and our stock and sheep, we are preparing to expand and we will gladly, welcome the influx of settlers coming our way. One English company has constructed a large reservoir to get the flood waters from the watersheds of the Bookcliff mountains, and a large tract will be irrigated by this means. The company intends colonizing these lands the coming season. coming season.

MOAB'S FUTURE PLANS.

MOAB'S FUTURE PLANS.

"Moab is a thriving litle town of 600 people. It is the county seat of Grand county, and contains some handsome public buildings and private residences. It has a graded school building which cost \$11,000; a high school, erected at a cost of \$3,600; and numerous business blocks. Monb has a \$10,000 water system. The establishment of a chamber of commerce is being agitated, also a fruit growers' association. A large canning factory is one of the prospects of the immediate future, by means of which a large portion of the fruit and vegetables grown in the district will be taken care of. We have a flourishing newspaper, with a wideawake editor.

"Moab is an ideal place for home-building.

HAS HISTORIC SITE. The town is built on the site of one of the cities of the ancient moundbuilders.

In my own orchard I have unearthed fragments of old pottery, some of the pleces flowered and painted in an artistic manner. Sealed Jars of corn have been thrown out in excavating, having very much the appearance of Indian corn. There are also some good specimens of painted hieroglyphs in the neighborhood, although very little meaning can be traced in the signs. But the paint used on them centuries ago is just as bright today as apparently it ever was. There are many natural curiosities in our section, among which may be mentioned those in Monument park, the natural bridge and the balanced rock. This bridge is probably 300 feet high and 300 feet wide. The rock is an enormous stone poised above a high perpendicular wall on a small strip of stone no larger than a man's finger.

"But these wonders must be seen to be appreciated and we extend an inviago is just as bright today as apparently it ever was. There are many natural curiosities in our section, among which may be mentioned those in Monument park, the natural bridge and the balanced rock. This bridge is probably 300 feet high and 300 feet wide. The rock is an enormous stone poised above a high perpendicular wall on a small strip of stone no larger than a man's finger.

"But these wonders must be seen to be appreciated, and we extend an invitation to all to come out to our country and see for themselves."

RISING FROM THE GRAVE.

A prominent manufacturer, Wm. A. Fertwell, of Lucama, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetes stage. I fully believe Electric Bitters will cure me permanently, for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at Z. C. M. I, Drug Dept., 112-114 So. Main St. Price only 50c.

A. and sisters of charity engaged in charity work.

MEN PAST SIXTY IN DANGER

MEN PAST SIXTY IN DANGER.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and necured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years although I am now 91 years old." For sale by F. J. Hill Drug Co.
